E³ PALLET WRAPPER GUIDE

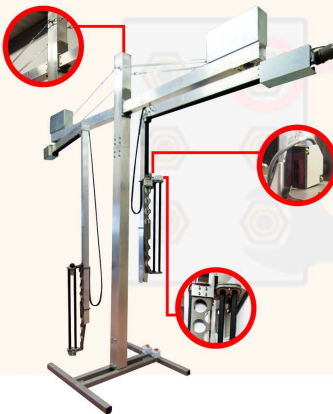

E3 WRAP 2100 SCALE

Heighten the rate of productivity with the E3 WRAP 2100 SCALE, a wrapping equipment that does packaging and weighing of pallets at the same time. Equipped with a weighing scale of up to 2000kg.

Also designed with an ergonomic concept, the E3 series also has a free space no blockage feature – Pallets are placed directly on the floor hence no lifting, pulling, or pushing of heavy bulky boxes, all keeping workers comfortable and productive.

E3 WRAP 2100 DUO

STEP E3 WRAP 2100 DUO is suitable for manufacturing plants aiming to double pallet wrapping output as this equipment has two rotary arms for concurrently packaging two palletized boxes.

Keeping safe the environment and workers with its 5 level safety features, this also has an added advantage when it came to handling cost – delivering quality operation with reduced material cost and power consumption. Providing businesses long term raise in productivity rate.
