

STEP Gummed Paper Dispensers

STEP FX-800 Manual Gummed Tape Dispenser

The STEP FX-800 is used for sticking the reinforced gummed tape which can lower packaging cost. Very easy to operate.

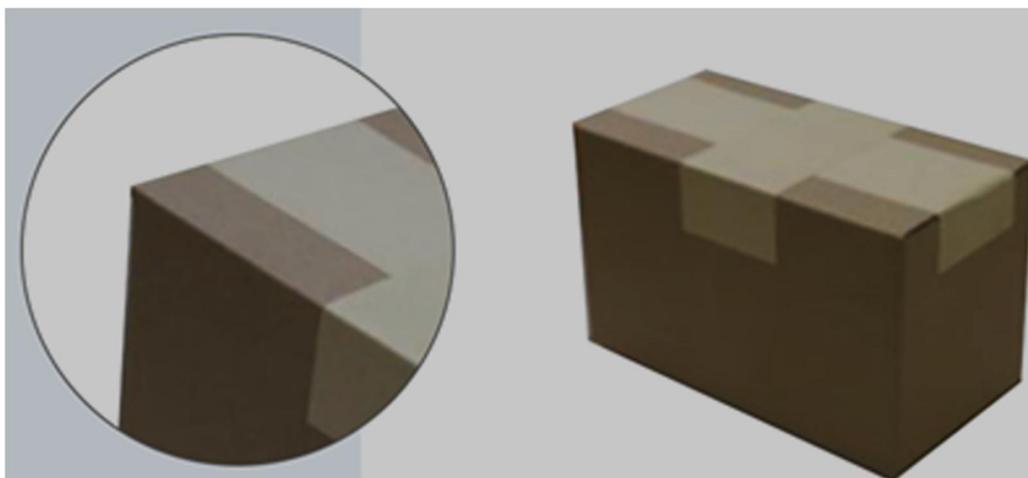

Specifications	
Width of Tape	20-80mm
Max. Tape Roll diameter	200mm
External Dimensions	480×330×320
Net Weight	35kg
Item Number	42216500

STEP FX-800P Automatic Kraft Paper - Gummed Tape Dispenser

Specifications	
Width of Tape	20-76mm
Max. Tape Roll diameter	230mm
Dispense length	150-9999mm
Speed	1,1 m/s
Voltage	84-240V 50-60Hz
Power	120W
External Dimensions	500×300×315mm
Weight	18kg
Item Number	42216510

Boxes closed with Kraft Paper Tape – Gummed Paper

STEP Gummed Paper Tapes

Compatible for use with a wide variety of tape dispensers, from manual to fully automated. It offers great adhesive capability for box and package sealing. It comes in two colors, brown and white. Gummed paper tapes are composed of a layer of paper obtained by combining 50% cellulose and 50% non cellulose components. The adhesive component can be made from either vegetable or animal glue.

Specifications:

	White	Brown
Weight	90 grams	70 grams
Package	70mmx200m per roll	70mmx200m per roll
Quantity	8 rolls per carton	6 rolls per carton
Item Number	55807060	55807065

Technical Features:

Vegetable Glue: based on carbohydrates, mainly starch and its derivatives namely; potatoes, corn etc.

Vegetable Glue characteristics:

- No smell
- Uniform water coating
- Longer open duration
- Slower bonding speed

Note: Vegetable glue absorbs more water than normal. Reduce water level in dispensers and switch top heaters on.

Animal Glue characteristics:

- Protein based adhesive.
- Made from animal bones, skin and sinews.
- Unpleasant smell.
- Irregular water coating
- Shorter open time
- Faster bonding

Note: Animal glue is water repellent. Adjust water level of dispenser higher than normal and switch the top heater on.

Advantages of STEP Gummed Paper Tapes

Utilizes Vegetable Glue

STEP Gummed Paper Tapes are made with vegetable glue for reliability and various advantages over animal glue tapes.

Cardboard box sealing adhesive penetration

Adhesive penetrates into the cardboard fibers creating a strong and reliable bond.

Tamper Proof

As a result of the adhesive penetration to the cardboard box, removing the tape leaves a mark which indicates tampering. Such feature guarantees maximum protection against theft and tampering.

Nature Friendly

Gummed paper tapes are made from natural materials and are 100% recyclable.

Temperature variation proof

Temperature extremes do not modify the tapes features. Once a box or a package is seal using a gummed paper tape, it remains sealed even under extreme heat, humidity and cold.
