STEP EF803-500E Pharmaceutical Heat Sealer

STEP EF803-500E Pharmaceutical Heat Sealer is a specialized piece of equipment used for the heat sealing treatment of breathing bags and other materials at the manufacturing site.

Main Characteristics:

- Easy to use
- Fully suitable for high-temperature steam sterilization
- Automatic operation:
- Heat sealing integrity:
- Temperature control accuracy
- Adjustable cooling time

Specification

SPECIFICATIONS:	
Model	STEP EF803-500E Pharmaceutical Heat Sealer
Item No.	49860040
Heat sealing length	≤ 500mm
Sealing width	3mm
Operating temperature	100-200 °C
Voltage	220V/230V-50/60HZ
Power	500W
Weight	10.2kg
