

## STEP G-50

The **STEP G-50 Semi-Automatic Side and Corner Sealing** Machine sealing machine focuses on the corner edges of a carton using an adhesive tape. Designed to be lightweight with correlated pulleys and flexible for an easy relocation, installation and to combine with the compatible sealing machines. Set up with driven motor interfacing with the conveying belt, once the carton starts its process and has an air cylinder to hold the two adhesive tapes on top of both sides.

### Features:

- Suitable for sealing cartons with equal dimensions
- Induction control system utilizes photoelectricity
- Automatically turn cartons 90° and push for sealing
- With a safety cutter to avoid accident
- Has steel and stainless-steel types
- High quality imported components.

SPECIFICATIONS:	
Dimension (LWH)	L1900xW1130xH1530mm
Weight	580KG
Model	STEP G-50
Conveyor Speed	20m/min
Packing Size Maximum (LWH)	L320-500xW200-500xH180-500mm
Table Height	Min H500mm Max H750mm
Power Supply	230V 50/60Hz 1P with Siemens Plug or Request for Other Voltage Version
Adhesive Tape Width	W48-50/60/75mm*L1000 code
Sealing speed	460 -600 pcs/hr
STEP Item No.	42111140

### Option:

- Combine to STEP A-50P Top, Bottom and Side Belts Carton Sealer, STEP B-56 Top and Bottom Driven Carton Sealer, and STEP C-50 Top & Bottom Sealing Machines and Flap Folding to complete end-of-line process.
