

## STEP Gummed Paper Tapes

Compatible for use with a wide variety of tape dispensers, from manual to fully automated. It offers great adhesive capability for box and package sealing. It comes in two colors, brown and white. Gummed paper tapes are composed of a layer of paper obtained by combining 50% cellulose and 50% non cellulose components. The adhesive component can be made from either vegetable or animal glue.

### Specifications:

	White	Brown
<b>Weight</b>	90 grams	70 grams
<b>Package</b>	70mmx200m per roll	70mmx200m per roll
<b>Quantity</b>	8 rolls per carton	6 rolls per carton
<b>Item Number</b>	55807060	55807065

### Technical Features:

Vegetable Glue: based on carbohydrates, mainly starch and its derivatives namely; potatoes, corn etc.

#### Vegetable Glue characteristics:

- No smell
- Uniform water coating
- Longer open duration
- Slower bonding speed

**Note:** Vegetable glue absorbs more water than normal. Reduce water level in dispensers and switch top heaters on.

#### Animal Glue characteristics:

- Protein based adhesive.
- Made from animal bones, skin and sinews.
- Unpleasant smell.
- Irregular water coating
- Shorter open time
- Faster bonding

**Note:** Animal glue is water repellent. Adjust water level of dispenser higher than normal and switch the top heater on.

## Advantages of STEP Gummed Paper Tapes

### Utilizes Vegetable Glue

STEP Gummed Paper Tapes are made with vegetable glue for reliability and various advantages over animal glue tapes.

### Cardboard box sealing adhesive penetration

Adhesive penetrates into the cardboard fibers creating a strong and reliable bond.

### Tamper Proof

As a result of the adhesive penetration to the cardboard box, removing the tape leaves a mark which indicates tampering. Such feature guarantees maximum protection against theft and tampering.

### Nature Friendly

Gummed paper tapes are made from natural materials and are 100% recyclable.

### Temperature variation proof

Temperature extremes do not modify the tapes features. Once a box or a package is seal using a gummed paper tape, it remains sealed even under extreme heat, humidity and cold.
